## EDUCATION

### Bachelor of Computer Science (GPA: 1.8)

SRH Berlin University of Applied Sciences

2021 → 2023

Berlin, Germany

- **Thesis:** Full-stack Gastronomy Reservation System

## EXPERIENCE

### Ground Floor Team member

Premier Inn City Centre

Nov 2024 → Ongoing

Berlin, Germany

- Handled check-ins and check-outs, ensuring smooth operations and guest satisfaction.
- Planned and coordinated availability, reservations, invoices, payment processes and responded to inquiries and offered solutions via phone, email, and in person, providing clear information.

### Working Student

Premier Inn City Centre

2021 → 2024

Berlin, Germany

- Working independently across diverse shifts: kitchen, early, late, and night shifts.

### Project Coordinator

Tech Combine Co., Th.

2020 → 2021

Bangkok, Thailand

- Monitored project progress, tracked milestones, and updated project schedules, identifying, addressing delays or issues and Organized documents on the company's server.
- Handled customer inquiries and support on social media, particularly Facebook, coordinating with the retail unit for customer requests.

## PROJECTS

### Hotel Room Drag & Drop Scheduler

Jun 2025

- Reception UI – A drag-and-drop interface for hotel front desk staff to assign rooms (departures, stayovers, late checkouts) across 8 floors, with auto-saving to JSONBin and reset at 18:00 daily.
- Housekeeping View – A real-time read-only dashboard that displays assigned room statuses to housekeeping staff without requiring interaction.

### Room Automation Scheduling report

Apr 2025

- A browser-based tool that parses delimited data exported from Opera PMS and uses JavaScript to automate room assignment and generate structured PDF schedules.

### Responsive Shift Checklist

Apr 2025

- A responsive operational checklist web app using JavaScript for daily report

### Cash Counting App

Apr 2025

- A browser-based cash counting app using JavaScript, and PDF-Lib, supporting keyboard navigation and exporting structured cash count data into a PDF report.

### Full-stack Gastronomy Reservation System

Jun 2024

- A Full-Stack Hotel Management Site with Next.js, React, Sanity.io, Tailwind CSS, and Stripe for bachelor thesis.

### Other Projects

2021 → 2023
