EDUCATION

Bachelor of Computer Science (GPA: 1.8)

SRH Berlin University of Applied Sciences

2021 → 2023

Berlin, Germany

- **Thesis:** Full-stack Gastronomy Reservation System

EXPERIENCE

Ground Floor Team member

Premier Inn City Centre

Nov 2024 → Ongoing

Berlin, Germany

- Handled check-ins and check-outs, ensuring smooth operations and guest satisfaction.
- Planned and coordinated availability, reservations, invoices, payment processes and responded to inquiries and offered solutions via phone, email, and in person, providing clear information.

Working Student

Premier Inn City Centre

2021 → 2024

Berlin, Germany

- Working independently across diverse shifts: kitchen, early, late, and night shifts.

Project Coordinator

Tech Combine Co., Th.

2020 → 2021

Bangkok, Thailand

- Monitored project progress, tracked milestones, and updated project schedules, identifying, addressing delays or issues and Organized documents on the company's server.
- Handled customer inquiries and support on social media, particularly Facebook, coordinating with the retail unit for customer requests.

PROJECTS

Hotel Room Drag & Drop Scheduler

Jun 2025

- Reception UI – A drag-and-drop interface for hotel front desk staff to assign rooms (departures, stayovers, late checkouts) across 8 floors, with auto-saving to JSONBin and reset at 18:00 daily.
- Housekeeping View – A real-time read-only dashboard that displays assigned room statuses to housekeeping staff without requiring interaction.

Room Automation Scheduling report

Apr 2025

- A browser-based tool that parses delimited data exported from Opera PMS and uses JavaScript to automate room assignment and generate structured PDF schedules.

Responsive Shift Checklist

Apr 2025

- A responsive operational checklist web app using JavaScript for daily report

Cash Counting App

Apr 2025

- A browser-based cash counting app using JavaScript, and PDF-Lib, supporting keyboard navigation and exporting structured cash count data into a PDF report.

Full-stack Gastronomy Reservation System

Jun 2024

- A Full-Stack Hotel Management Site with Next.js, React, Sanity.io, Tailwind CSS, and Stripe for bachelor thesis.
